workers.properties

— *이강우 2025/12/22 07:04*

```
worker.list=balancer

##### load-balancer
worker.balancer.type=lb
worker.balancer.sticky_session=true
### session cookie name
# worker.balancer.session_cookie=JSESSIONID

worker.balancer.balance_workers=node11

### node11
worker.node11.reference=worker.template
worker.node11.host=127.0.0.1
worker.node11.port=8109
worker.node11.activation=A
# end

##### worker template
worker.template.type=ajp13
### socket timeout (seconds)
worker.template.socket_timeout=10
### if use firewall between (WEB-WAS)
# worker.template.socket_keepalive=true
worker.template.ping_mode=A
### ping timeout (milli seconds)
worker.template.ping_timeout=10000
### connection pool size (auto; prefork must set 1)
# worker.template.connection_pool_size=
# worker.template.connection_pool_minsize=
# worker.template.connection_pool_timeout=600
### reply timeout (milli seconds)
worker.template.reply_timeout=30000
worker.template.recovery_options=3
```
