The screenshot shows the 'Region & Language' settings screen from the Samsung Settings application. The top navigation bar includes icons for wrench (Settings), search, and title '설정' (Settings). The main area has a header '지역 및 언어' (Region & Language) with a close button 'x'. On the left is a sidebar with various settings categories: WiFi, Bluetooth, Background, Notifications, Search, Region & Language (selected and highlighted in blue), Nearby, Online Account, Personal Information, Share, Sound, and Screen. The main content area displays two language input methods: '언어(L)' (English(L)) set to '한국어' (Korean) and '형식(F)' (Format(F)) set to '대한민국' (South Korea). Below this is a 'Input Method' section with '한국어' (Korean) as the primary input method, followed by '한국어 (Hangul)' with a gear icon indicating it's the active input. At the bottom are buttons for adding (+), removing (-), and switching input methods (^, v).
