Intel Parallel Studio XE 2020 on RHEL8

— 2020/10/19 10:32

Redhat Enterprise Linux 8   Intel Parallel Studio XE 2020   .

RHEL8

RHEL8   Server with GUI   Legacy UNIX Compatibility, Development Tools
          .

Intel Parallel Studio XE 2020

                                                                    . 32

       .

```
[root@myserver ~]# yum -y install elfutils-libelf-devel libXScrnSaver gcc-
toolset-9-elfutils-libelf-devel libstdc++ libstdc++-devel libstdc++.i686
libstdc++-devel.i686 gcc-toolset-9-libstdc++-devel gcc-toolset-9-libstdc++-
devel.i686 glibc glibc.i686 glibc-devel glibc-devel.i686 libgcc libgcc.i686
```

```
[root@myserver parallel_studio_xe_2020_update2_cluster_edition]#
./install.sh

--------------------------------------------------------------------------------
Initializing, please wait...
--------------------------------------------------------------------------------

Welcome
--------------------------------------------------------------------------------
Welcome to the Intel(R) Parallel Studio XE 2020 Update 2 Cluster Edition
Linux*
--------------------------------------------------------------------------------

You will complete the following steps:
    1.  Welcome
    2.  End User License Agreement
    3.  Intel® Software Improvement Program
    4.  License Activation
    5.  Configuration
```

6.   Installation
7.   Installation Complete

…………

Installation

Each component will be installed individually. If you cancel the
installation,
some components might remain on your system. This installation may take
several
minutes, depending on your system and the options you selected.

Installing Intel Trace Collector for Intel(R) 64 Architecture component...
done

Installing Intel Trace Analyzer for Intel(R) 64 Architecture component...
done

Installing Cluster Checker component...^[[1~ done

Installing Platform Profiler component... done

Installing Command line interface component... done

Installing Sampling Driver kit component... done

Installing Graphical user interface component... done

Installing Graphical user interface component... done

Installing Command line interface component... done

Installing Flow Graph Analyzer component... done

Installing Command line interface component... done

Installing Graphical user interface component... done
