

Ironic BIOS or UEFI	3
----------------------------	---

Ironic BIOS or UEFI

Bare Metal

```

        (uefi      bios)
        가      uefi      bios      , bare metal
properties   capabilities      bare metal

        uefi      , capabilities      :

```

```
openstack baremetal node set <node-uuid> --property
capabilities='boot_mode:uefi'
```

```
,      bios      , capabilities      :
```

```
openstack baremetal node set <node-uuid> --property
capabilities='boot_mode:bios'
```

```

Ironic      Yoga      bios      uefi
. uefi      boot_mode  가      Compute      flavor      extra_spec      가
:

```

```
openstack flavor set ironic-test-3 --property capabilities:boot_mode="uefi"
openstack server create boot --flavor ironic-test-3 --image test-image
instance-1
```

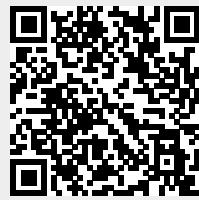

```

capabilities가 extra_spec      , nova
(ComputeCapabilitiesFilter)  properties/capabilities      boot_mode가
bare metal      . flavor      boot_mode가
Compute      uefi      bios      . nova
bare metal      boot_mode가      . flavor      boot_mode가
bios      uefi      . nova

```

UEFI
