```

CentOS/RHEL 8

CentOS/RHEL 8

．network-scripts 　　　　　　　　　　　　．

```
$ yum install network-scripts
```

ifcfg   network.service   . ifup/ifdown
.

```
$ ifup ens4
WARN     : [ifup] You are using 'ifup' script provided by 'network-
scripts', which are now deprecated.
WARN     : [ifup] 'network-scripts' will be removed in one of the next
major releases of RHEL.
WARN     : [ifup] It is advised to switch to 'NetworkManager' instead - it
provides 'ifup/ifdown' scripts as well.
```

.

.

```
$ touch /etc/sysconfig/disable-deprecation-warnings
```

NetwrokManager.service   network.service   .   :

```
$ systemctl status network
```

.

```
$ systemctl enable network
```

network-scripts   NetworkManager

NetworkManager   /etc/sysconfig/network-scripts/ifcfg-ethX
.   ethX   NetworkManager
.

```
$ vi /etc/sysconfig/network-scripts/ifcfg-ethX
NM_CONTROLLED="no"
```
