

python in RHEL 8 3
..... 3

python in RHEL 8

RHEL8 python

```
$ yum install python3
$ python3
Python 3.6.8 (default, Sep 12 2021, 04:40:35)
[GCC 8.4.1 20200928 (Red Hat 8.4.1-1)] on linux
Type "help", "copyright", "credits" or "license" for more information.
>>>
```

가 python python3

```
$ python
-bash: python: command not found
```

python3 python

```
$ alternatives --set python /usr/bin/python3
```
