RedHat signed image push

RedHat signed image push

RedHat signed image push

```
Getting image source signatures
Checking if image destination supports signatures
Error: Copying this image requires changing layer representation, which is
not possible (image is signed or the destination specifies a digest)
```

RedHat   Signed Image   push
    .   RedHat   push
        .

    push   --remove-signatures   .

```
podman push --remove-signatures
```
