Would you like to proceed? (Yes, No) [Yes]:
do you wish to update them now? (Yes, No) [Yes]:
Do you want to abort Setup? (Yes, No) [Yes]: no
Do you want Setup to configure the firewall? (Yes, No) [Yes]:
Would you like to backup the existing database before upgrading
it? (Yes, No) [Yes]: no
Are you sure you do not want to backup the DWH database?(Yes, No)
[No]: yes

Perform full vacuum on the engine database engine@localhost?
This operation may take a while depending on this setup health and
the
configuration of the db vacuum process.
See https://www.postgresql.org/docs/9.0/static/sql-vacuum.html
(Yes, No) [No]: yes
Renew certificates? (Yes, No) [No]: yes
During execution engine service will be stopped (OK, Cancel) [OK]:
Please confirm installation settings (OK, Cancel) [OK]:

```

23. 3.6 4.1 (:)

```

[root@hyp3 ~]# yum update

```
