

Unable to autolaunch a dbus-daemon 3

Unable to autolaunch a dbus-daemon

```
[root@host ~]# firefox
Failed to open connection to "session" message bus: Unable to autolaunch a
dbus-daemon without a $DISPLAY for X11
Running without ally support!
Error: no DISPLAY environment variable specified
```

```
X Client                                     가      .  
dbus-daemon                                dbus-x11     가
```

```
[root@host ~]# yum -y install dbus-x11 mesa-dri-drivers
```

```
가 X11 Forwarding X DISPLAY"
localhost:0.0"
```
